

# SIOBHAN TAYLOR

## **PRESIDENT AND CHIEF EXECUTIVE OFFICER DEPAUL CRISTO REY**

Siobhan Taylor believes that transformational education changes not only students but also families and communities. She was named the second president of DePaul Cristo Rey High School (DPCR) in Cincinnati in August 2020.

A Cincinnati native, Siobhan is a graduate of Ursuline Academy, Miami University and the University of Michigan. She holds a bachelor's degree in political science and anthropology, a master's degree in social work social policy, and completed additional studies at the University of Cincinnati College of Law. She has held several educational leadership positions in Cincinnati and New Albany, Ohio.

As President & CEO of DePaul Cristo Rey High School, Siobhan is passionate about providing opportunities for students to secure their futures, and is equally committed to fostering each student's spiritual development. DPCR serves students who aspire to go to college but whose families have limited financial means. As a Catholic, college preparatory high school with a unique Corporate Work Study Program, DPCR gives students the experience of working in businesses and organizations throughout their high school careers.

Siobhan was named a member of Leadership Cincinnati Class 47 in 2023; as a Power 100 Rising Star in July 2023 and 2024; as an Ohio Top 500 Leader in 2022, 2023 and 2024; and among Greater Cincinnati's Forty under 40 list of emerging leaders in September 2021. Her interests in and passion for education, female empowerment, and mental health advocacy have led her to make an impact through significant volunteer work that has an international reach. She serves on the Ambassador Council of the Eating Recovery Center and frequently serves on mental health panels with a particular interest in those that address mental health and spirituality issues in diverse communities. She also serves on the board of Feed the Soul (formerly known as MyWhy), a local non-profit focused on ensuring children have the vital nutrients needed to improve health, academic, and life outcomes. In her spare time, she has an affinity for travel, boxing, and diverse cuisine; and most recently, she has added adult gymnastics to the list.
